GLASMETIS -QKGBS

Braided Mesh Glass Panel

GLASMETIS - QKGBS Braided Mesh Glass Panel pairs laminated glass with braided metal mesh to offer safety, impact resistance, and bold visual texture—ideal for partitions, doors, and decorative wall features.

Glasmetis - QKGBS

Braided Mesh Glass Panel

The Glasmetis - QKGBS Braided Mesh Glass Panel is a high-performance solution that merges laminated glass with intricately braided metal mesh for enhanced strength, safety, and aesthetics. Crafted using stainless steel, brass, or copper mesh, the panel resists impact while retaining broken fragments, ensuring structural integrity. The braided design creates a dynamic, elegant texture that elevates the visual appeal of any space. Ideal for partitions, feature walls, doors, and elevator interiors, QKGBS is available in custom sizes, finishes, and patterns—offering design flexibility and refined style for modern architectural and interior applications.
