GLASMETIS -QKGCR Crimped Mesh Glass Panel

GLASMETIS - QKGCR Crimped Mesh Glass Panel is combines laminated glass with decorative crimped metal mesh, delivering strength, safety, and texture for stylish walls, facades, doors, and railings.

Glasmetis -QKGCR

Crimped Mesh Glass Panel

The Glasmetis - QKGCR Crimped Mesh Glass Panel is a modern fusion of laminated glass and decorative crimped metal mesh, offering both security and sophisticated style. Available in stainless steel, brass, copper, or aluminum, the embedded mesh reinforces the panel while adding visual depth and texture. Even when fractured, the mesh securely holds glass fragments in place, making it ideal for high-traffic or safety-sensitive environments. The crimped design reflects light and creates distinctive patterns—perfect for use in facades, doors, railings, and interior walls. With options for laminated, tempered, fire-rated, or low-e glass, and customizable mesh colors,
