GLASMETIS -QKWWD Interior Laminated Mesh Glass

GLASMETIS - QKWWD Interior Laminated Mesh Glass

is merges tempered glass with woven metal mesh to deliver elegant, impact-resistant panels—perfect for interior partitions, cladding, railings, and stylish room dividers.

Glasmetis -QKWWD

Interior Laminated Mesh Glass

The Glasmetis - QKWWD Interior Laminated Mesh Glass is a contemporary design solution that integrates woven metal mesh—crafted from stainless steel, brass, copper, or aluminum—within layers of tempered glass. This fusion creates a balance of safety, durability, and visual refinement. The embedded mesh adds rich texture, soft light diffusion, and unique character to interiors, while maintaining impact resistance and UV protection. Ideal for partitions, wall cladding, stair railings, and room dividers, QKWWD is fully customizable in mesh pattern, finish, and glass type. Whether in luxury homes, hotels, or modern office interiors, it enhances every space with sophistication and lasting performance.
