Installation Detail

Clarus JH0GB Textured Glass Block installation offers strength and a modern look. Installation uses trimmed “T” and “L” spacers for edges and corners, with blocks laid on sand paste or mortar. Spacers ensure even joints, accurate alignment, and secure placement. Cross-shaped spacers are cut into “T” and “L” shapes as needed for proper positioning. Glass blocks are installed layer by layer using a sand paste, with spacers placed between each block to maintain alignment and ensure a secure fit.
