## 38 FORMAVOX -65GE Sculpted Wall Tile

**FORMAVOX-65GE 3D Sculpted Wall Tile** adds bold 3D geometry and sculptural depth to modern interiors. Its rhythmic patterns bring visual energy to walls, making it ideal for homes, hotels, offices, retail spaces, and feature zones that demand both style and architectural impact.

# Formavox-65GE

## Sculpted Wall Tile

Formavox-65GE Sculpted Wall tile is crafted from Ultra-High Performance Concrete (UHPC), a material renowned for its exceptional strength, durability, and fine surface detailing. Each 300 × 300 mm tile is precision-molded to achieve clean, sharply defined lines and a consistent sculptural form. The modular format allows for a wide range of layout possibilities, from symmetrical, grid-based designs to more creative, staggered arrangements that enhance visual rhythm. Its bold 3D geometry interacts beautifully with both natural and artificial light, creating a play of highlights and shadows that shifts throughout the day.
