41 FORMAVOX -68FU

3D Carved UHPC Wall Tile

FORMAVOX-68FU 3D Carved UHPC Wall Tile adds striking architectural depth to interiors with its crater-inspired 3D surface. Designed to transform walls into focal points, it's ideal for luxury homes, boutique retail, hospitality settings, and modern commercial spaces seeking texture, movement, and visual impact.

Formavox-68FU

3D Carved UHPC Wall tile

Formavox-68FU 3D Carved UHPC Wall tile is crafted from Ultra-High Performance Concrete (UHPC), ensuring unmatched durability, refined detailing, and a finish that retains its beauty over time. The crater-like surface features sculpted recesses that catch and disperse light, producing a constantly shifting play of highlights and shadows. This tactile geometry brings a sense of motion and dimension to any wall, turning static surfaces into dynamic design features. With a modular, lightweight construction, installation is efficient and adaptable, whether used in expansive statement walls or smaller, accent-focused applications. Balancing bold visual impact with enduring elegance, it seamlessly complements both contemporary and expressive design schemes.
