42 FORMAVOX -69FU

Futuristic Carved Wall Tile

FORMAVOX-69FU Futuristic Carved Wall Tile redefines wall design with its bold, flowing geometry and futuristic carved patterns. Its large-scale presence makes it ideal for luxury homes, hotels, commercial lobbies, and statement walls, bringing modern architectural impact to any interior space.

Formavox-69FU

Futuristic Carved Wall tile

Formavox 69FU Futuristic Carved Wall Tile is expertly engineered from Ultra-High Performance Concrete (UHPC), delivering exceptional durability, crisp detailing, and long-lasting performance. The expansive 1000 × 1000 mm panels minimize visible joints, creating an uninterrupted sculptural flow across the surface. Its sweeping curves and fluid carved lines catch and release light in ever-changing patterns, lending the wall a sense of motion and energy. This interplay of shadow and highlight enhances the tile’s futuristic aesthetic, while its modular design allows for seamless integration in both expansive and intimate applications. Perfect for interiors seeking a bold architectural statement, it balances cutting-edge style with timeless sophistication.
