Architectural 3D Wall Tile

The Formavox-63YA 3D wall tile features a modern linear texture that interacts beautifully with light and shadow, creating a dynamic surface with strong architectural presence. Its elongated design offers layout flexibility, working equally well in vertical or horizontal installations. Suitable for both residential and commercial interiors, it adds depth and elegance without overwhelming the space. Crafted for durability and style, it comes in matte or metallic finishes to complement a wide range of décor themes. Whether for a bold statement wall or a subtle accent, Formavox 63YA delivers contemporary sophistication and design versatility.
