66 RATTANA -P5FC-Synthetic Rattan Cane Panel

RATTANA – P5FC Synthetic Rattan Cane Panel combines clean craftsmanship with modern style. Its hexagon webbing, smooth texture, and durable finish make it ideal for walls, cabinets, doors, ceilings, and décor features. Perfect for homes, cafés, resorts, and commercial projects needing a warm natural look.

Rattana -P5FC Synthetic Rattan Cane Panel

The RATTANA-P5FC Synthetic Rattan Cane Panel offers a natural, warm, and modern finish for interior projects. Each strip is hand-trimmed, machine-woven, and refined by skilled artisans, creating a clean and steady weave. Its hexagon webbing comes in multiple hole sizes, giving designers freedom for cabinets, doors, walls, ceilings, and partitions. The panel also works well in humid or tropical conditions, making it ideal for cafés, resorts, villas, and commercial spaces. With its strong structure and handcrafted detail, it delivers timeless style and dependable performance.

Finishes

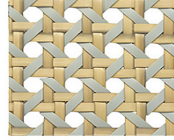

The RATTANA-P5FC features a natural hexagon weave with a smooth hand-finished surface. Each panel shows steady texture, refined edges, and clean joints. Available in natural rattan peel or durable PVC cane options, it offers a warm, modern, and consistent finish suitable for many interior applications.

Installation Detail

Installation is simple and flexible. Cut the panel to size using a fine blade, then fix it with adhesive, brad nails, or a frame system. Ensure the surface is clean and dry before mounting. For curved or shaped applications, lightly mist the panel to increase flexibility. Always support edges properly to maintain weave tension and durability.
