ACUFORM -CFMHLAP- Modern Decorative Acoustic Panels are made from eco-friendly 100% PET with 50% recycled fiber. Available in 50+ colors, multiple thicknesses, and custom shapes, they provide strong sound-reduction and a stylish finish. Ideal for cinemas, offices, podcast rooms, and home theaters.

Acuforms -CFMHLAP

Modern Decorative Acoustic Panels

The ACUFORMS-CFMHLAP Decorative Acoustic Panels combine modern design with strong sound-reduction performance. Made from 100% PET fiber with 50% recycled content, they offer an eco-friendly solution for interior acoustic improvement. With more than 50 colors, various thickness options, and custom shapes, these panels fit many design styles. They are fire-rated B1, lightweight, durable, and easy to maintain. Suitable for cinemas, offices, studios, podcast rooms, and home theaters, they enhance both sound quality and visual appeal.

Installation Detail

ACUFORMS-CFMHLAP panels can be installed using adhesive, nails, or a combination of both. Begin by cleaning the wall surface and marking reference lines for correct alignment. Apply construction glue evenly on the back or place nails through the panel into the substrate. Press firmly to ensure full contact. Panels can be trimmed or shaped using standard cutting tools for corners, joints, or custom layouts. Allow proper curing time for secure and long-lasting installation.

1. Prepare Wall and Panel

2. Apply Adhesive Gum

3. Press to Wall

4. Roll to Secure Panels
