Square Grooved
Acoustic Panel**

ACUFORMS -CFMHLVS7-Square Grooved Acoustic Panel is a modern acoustic wall panel designed to reduce noise and enhance interior comfort. Made from eco-friendly PET felt, it offers excellent sound absorption with a clean square design, making it ideal for offices, studios, commercial spaces, and residential interiors.

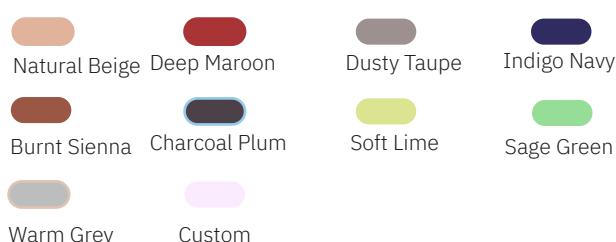

Acuforms -CFMHLVS7 Square Grooved Acoustic Panel

ACUFORMS – CFMHLVS7 Square Grooved Acoustic Panel is a high-performance acoustic solution created for modern interior environments. Manufactured from 100% polyester fiber with recycled PET content, this grooved acoustic panel delivers strong sound absorption with an NRC of 0.8–0.95. The square format and fabric-like PET felt finish add a decorative touch while improving acoustic comfort. Suitable as an interior acoustic panel for offices, meeting rooms, classrooms, hospitality spaces, and home theaters, it combines function, safety, and contemporary design.

Installation Detail

ACUFORMS – CFMHLVS7 Square Grooved Acoustic Panel can be installed using adhesive, nails, or a combination of both. Begin by cleaning the wall surface and marking reference lines for correct alignment. Apply construction glue evenly on the back or place nails through the panel into the substrate. Press firmly to ensure full contact. Panels can be trimmed or shaped using standard cutting tools for corners, joints, or custom layouts. Allow proper curing time for secure and long-lasting installation.

1. Prepare Wall and Panel

2. Apply Adhesive Gum

3. Press to Wall

4. Roll to Secure Panels
