CAEME-CFV3D Vacht 3D Cement Brick

CAEME -CFV3D - Vacht 3D Cement Brick is a premium 3D cement brick wall panel designed for interior and exterior use. Featuring a realistic brick texture and clean white base, it adds depth and character to modern spaces. Lightweight, waterproof, fireproof, and handmade, it is ideal for feature walls in residential and commercial projects.

CAEME -CFV3D Yacht 3D Cement Brick

CAEME CFV3D – Yacht 3D Cement Brickl combines modern design with durable performance. These textured wall tiles replicate the natural depth of brick while offering a lightweight and easy-to-install solution. Made from high-quality cement, the panels are waterproof, fireproof, recyclable, and suitable for indoor and outdoor applications. Their sculpted 3D surface enhances light and shadow, making them ideal for living room feature walls, hotels, offices, retail spaces, and toilet dry areas. Available in a white base with multiple custom color options, they support flexible architectural design.

Installation Detail

Install CAEME CFY3D Yacht panels using high-quality tile glue and structural adhesive. First, mark and measure the installation area carefully to reduce cutting, as the panels are special-shaped. Ensure the wall surface is clean, dry, and level. Apply adhesive evenly and fix panels firmly according to the manufacturer's installation guidelines for best results.

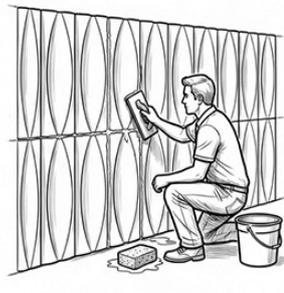

1. Prepare Wall and Apply Adhesive

2. Set First Panel

3. Install & Align Panels

4. Grout & Finish
