ORNVITRUM -YZOPDGT Prismatic Decora- tive Glass Block

**ORNVITRUM - YZOPDGT -Prismatic Decora-
tive Glass Block** is a 12mm prismatic decorative glass tile designed for modern decorative glass wall tiles and feature installations. Its moulded crystalline surface enhances light reflection while adding depth and texture. Available in transparent and colored finishes, it is ideal for luxury hotels, offices, retail spaces, and contemporary interiors.

ORNVITRUM-YZ0CDHGB Colored Decorative Hanging Glass Block

ORNVITRUM – YZ0PDGT Prismatic Decorative Glass Tile is a premium architectural glass solution for decorative glass wall tiles and illuminated feature walls. Manufactured from high-quality crystalline glass, the 12mm thick tile offers strength, clarity, and long-term durability. Its prismatic textured surface reflects and diffuses light, creating dynamic visual effects. Available in multiple sizes and vibrant colors, this modular system allows customized layouts with stainless steel wire support and optional LED compatibility, making it suitable for commercial and high-end residential interiors.

Installation Detail

ORNVITRUM – YZ0PDGT Prismatic Decorative Glass Tile install top and bottom aluminium channels securely to the ceiling and floor using anchor bolts and ensure perfect level alignment. Insert vertical stainless steel rods between the channels and fix support connectors with light tightening. Mount the first row of prismatic glass panels horizontally onto the lower supports using clips between panels. Continue stacking rows upward and fully tighten all connectors to complete the installation securely.

1. Secure Top & Bottom Aluminum Channels

2. Install Vertical Rods / Support Connectors

3. Mount First Row of Horizontal Prismatic Glass Panels

4. Complete Grid & Final Tightening
