## X Square Synthetic Rattan Panel

RATTANA – P13XS-X Square Synthetic Rattan Panel combines architectural design with durable synthetic materials to create a refined woven wall cladding solution. Manufactured from high-quality HDPE synthetic rattan, the panel features a precise square weaving pattern that produces a striking 3D woven wall texture. This decorative panel enhances interior spaces by adding depth, warmth, and visual interest to feature walls and partitions. Because of its strong yet lightweight construction, the panel is easy to install and maintain. It is resistant to moisture and everyday wear, making it suitable for residential and commercial environments such as hotels, restaurants, retail spaces, and luxury homes.

# Installation Detail

The RATTANA – P13XS-X Square Synthetic Rattan Panel  can be installed on plywood, MDF, gypsum board, or metal framing substrates. Ensure the surface is clean, dry, and level before installation. Panels may be fixed using screws with finishing caps or construction adhesive, depending on project requirements. For large installations, use proper alignment and spacing to maintain the woven pattern continuity. Professional installation is recommended for best results.
