3D Triangular Space Acoustic Wall Panels ACUFORMS -CFMH3DT8

3D Triangular Space Acoustic Wall Panel -ACUFORMS-CFMH3DT8 are high-performance sound absorbing wall panels made from eco-friendly polyester fiber. Designed with a modern geometric form, they reduce noise and echo while enhancing interiors. Ideal for offices, studios, and stylish residential spaces.

Acuforms-CFMH3DT8

3D Triangle Screen Acoustic Panel

3D Angular Space Acoustic Wall Panels – ACUFORMS -CFMH-3DT8 are designed to enhance both acoustics and interior aesthetics. The bold angular 3D structure increases surface area, allowing better sound absorption and reduced echo. Made from 100% polyester fiber (PET), the panels are lightweight, durable, and eco-friendly. They are suitable for offices, hotels, home theatres, retail spaces, and modern interiors. In addition, the panels are flame retardant and easy to maintain. With customizable colors and a modular design, they provide flexible installation while transforming walls into striking architectural features.

Available in Multiple Colors

Custom Color Selection

Customize your 3D Angular Space Acoustic Wall Panels – ACUFORMS -CFMH3DT8 with your preferred color selection. Choose from a wide range of shades to achieve perfect design harmony, enhance interior aesthetics, and create bold, modern acoustic wall features. These customizable panels are ideal for adding both visual impact and effective sound control in residential and commercial spaces.

Installation Detail

3D Angular Space Acoustic Wall Panels – ACUFORMS -CFMH3DT8 can be installed using adhesive, nails, or a combination of both. Begin by cleaning the wall surface and marking reference lines for correct alignment. Apply construction glue evenly on the back or place nails through the panel into the substrate. Press firmly to ensure full contact. Panels can be trimmed or shaped using standard cutting tools for corners, joints, or custom layouts. Allow proper curing time for secure and long-lasting installation.

1. Prepare Wall and Pannel

2. Apply Adhesive Gum

3. Press to Wall

4. Roll to Secure Panels
