## 3D Sea Acoustic Panel

3D Sea Acoustic Panels – ACUFORMS -CFMH3DS9 are premium decorative acoustic panels designed to improve both sound quality and interior aesthetics. Manufactured from 100% polyester fiber using high-temperature pressing technology, these 3D acoustic wall panels feature a sculpted wave pattern that adds depth and architectural character to modern spaces. In addition, the integrated cavity structure enhances sound absorption and reduces echo effectively. Lightweight, durable, eco-friendly, and flame-retardant, these sound absorbing wall panels are ideal for offices, hotels, studios, home theaters, retail interiors, and luxury commercial environments.

# Finishes

3D Sea Acoustic Panels – ACUFORMS -CFMH3DS9 feature a smooth surface finish that enhances their clean and modern look. They are available in a wide range of customized colors to match different interior themes. The finish is durable, fade-resistant, and easy to maintain, making it suitable for both residential and commercial applications.

## **CFMH3DS9**

Available in Multiple Colors

## Custom Color Selection

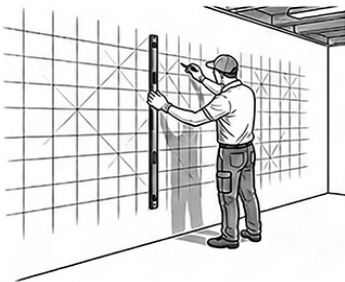

Customize your 3D Sea Acoustic Panels – ACUFORMS -CFMH3DS9 with your preferred color selection. Choose from a wide range of shades to achieve perfect design harmony, enhance interior aesthetics, and create bold, modern acoustic wall features. These customizable panels are ideal for adding both visual impact and effective sound control in residential and commercial spaces.

# Installation Detail

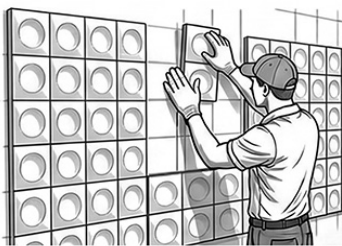

3D Sea Acoustic Panels – ACUFORMS -CFMH3DS9 can be installed using adhesive, nails, or a combination of both. Begin by cleaning the wall surface and marking reference lines for correct alignment. Apply construction glue evenly on the back or place nails through the panel into the substrate. Press firmly to ensure full contact. Panels can be trimmed or shaped using standard cutting tools for corners, joints, or custom layouts. Allow proper curing time for secure and long-lasting installation.

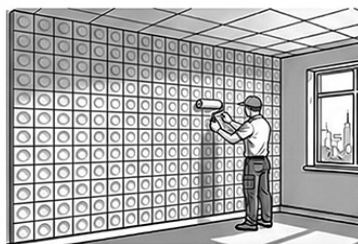

1. Prepare Wall and Panel

2. Apply Adhesive Gum

3. Press to Wall

4. Roll to Secure Panels
