# Skeletal Synthetic Rattan Panel
# Rattana -P14

Skeletal Synthetic Rattan Panel – RATTANA-P14SK combines the elegance of traditional woven rattan with the durability of modern HDPE construction. Its distinctive herringbone pattern creates textured feature walls, decorative partitions, and stylish wall cladding for hotels, restaurants, retail stores, offices, and luxury homes. Resistant to moisture, fading, cracking, and insects, this lightweight panel requires minimal maintenance while maintaining its natural woven appearance. Available in custom sizes and multiple colours, it offers a versatile solution for premium commercial and residential interior projects.

# Installation Detail

The Skeletal Synthetic Rattan Panel – RATTANA-P14SK Panel  can be installed on plywood, MDF, gypsum board, or metal framing substrates. Ensure the surface is clean, dry, and level before installation. Panels may be fixed using screws with finishing caps or construction adhesive, depending on project requirements. For large installations, use proper alignment and spacing to maintain the woven pattern continuity. Professional installation is recommended for best results.
