Triple Cross Synthetic Rattan Panel RATTANA -P17T

Triple Cross Synthetic Rattan Panel -RATTANA-P17T

is a premium HDPE decorative panel featuring an elegant woven Triple Cross pattern. It offers the natural appearance of rattan with superior durability, moisture resistance, and low maintenance. Ideal for feature walls, partitions, hospitality, retail, and luxury residential interiors.

Triple Cross Synthetic Rattan Panel

Rattana -P17T

Triple Cross Synthetic Rattan Panel – RATTANA-P17T is combines the timeless beauty of woven rattan with the durability of High-Density Polyethylene (HDPE). Its distinctive Triple Cross weave creates a rich textured surface, making it ideal for decorative wall cladding, feature walls, partitions, hospitality spaces, retail stores, offices, and luxury residences. The panel is lightweight, moisture-resistant, easy to maintain, and available in custom sizes and multiple colours. A fire-retardant option is available upon request, making it suitable for a wide range of premium interior design applications.

Installation Detail

Installation methods vary depending on the project design and site conditions. Generally, the Triple Cross Synthetic Rattan Panel – RAT-TANA-P17T is installed using a supporting framework similar to a suspended ceiling or wall cladding system. Panels are securely fixed to the framework to ensure stability and a clean finish. Professional installation is recommended to achieve accurate alignment, proper support, and the best visual result.
