ORNVITRUM -CFLYC931 Cylindrical Crystal Glass Partition

ORNVITRUM-CFLYC931-Cylindrical Crystal Glass Partition is a cylindrical crystal glass partition element featuring a fluted glass body and faceted decorative ends. Its 31 cm assembled length and transparent finish create an elegant, light-filled divider for luxury hotels, restaurants, offices, retail spaces, and commercial interiors.

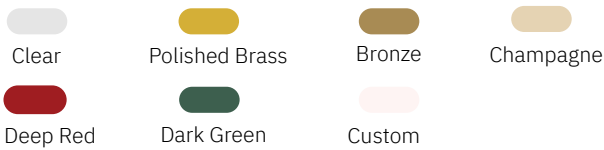

ORNVITRUM-CFLYC931

Cylindrical Crystal Glass Partition

ORNVITRUM-CFLYC931 combines clear crystal glass with a fluted cylindrical body and faceted decorative elements to create a distinctive architectural partition solution. The three-part construction forms a 31 cm assembled element with textured surfaces that reflect and diffuse light beautifully. Designed for customized glass screens, room dividers, and decorative partitions, it maintains visual openness while adding texture and luxury. The element is suitable for hotel lobbies, restaurants, cafés, retail stores, offices, reception areas, and other premium commercial interiors. Multiple units can be integrated with customized framing and support systems.

Finishes

ORNVITRUM-CFLYC931 Cylindrical Glass Partition available in a clear, transparent crystal glass finish with ribbed, fluted, and diamond-cut textures. The textured cylindrical surface adds depth, while the faceted decorative ends create light-catching highlights. The transparent finish maintains visual openness and complements metal frames and contemporary architectural interiors.

Installation Detail

ORNVITRUM-CFLYC931 Cylindrical Glass Partition install the three glass components by first assembling the fluted cylindrical center with the two faceted decorative ends. Align each part carefully to create a stable, straight unit. Secure the assembled element to a suitable customized support system, frame, rod, or architectural structure according to the project design. Multiple elements can be positioned at required spacing to form a decorative partition, screen, or room divider

1. Mark Layout and Prepare Individual Wall Anchor Clips

2. Secure First Panel Component to Initial Anchor Clip

3. Interlock and Level Remaining Panels with Integrated Tabs

4. Complete Matrix and Apply Edge Finishing Strips
