Water Pattern
Synthetic
Rattan Panel
**RATTANA
-P32WP**

Water Pattern Synthetic Rattan Panel -RATTANA-P32WP is a water-pattern synthetic rattan panel made from durable HDPE. Its flowing woven texture adds warmth and visual depth to walls, partitions, and decorative surfaces. Available in custom sizes, shapes, and colors, with a fire-retardant option for project requirements.

Water Pattern Synthetic Rattan Panel Rattana -P32WP

Water Pattern Synthetic Rattan Panel RATTANA-P32WP combines a flowing woven pattern with the durability of HDPE synthetic rattan. Its textured surface creates a warm, natural-inspired appearance while remaining lightweight and easy to maintain. With a 2–3 mm thickness, the panel is suitable for feature walls, partitions, decorative cladding, hospitality interiors, retail spaces, commercial areas, and selected exterior applications. Custom shapes, sizes, and colors are available. A fire-retardant option can also be requested for project-specific requirements.

Finishes

Water Pattern Synthetic Rattan Panel RATTANA-P32WP is available in Brown, Yellow, Green, Red, Grey, and Dark Brown finishes. Custom colors can also be produced to suit specific design requirements. The water-weave texture provides a natural rattan-inspired appearance while maintaining the consistent finish of HDPE synthetic material. Fire-retardant finish is available upon request.

P32WP-01

Installation Detail

Water Pattern Synthetic Rattan Panel RATTANA-P32WP installed as a decorative wall panel, partition, screen, or cladding surface using suitable mechanical fixing methods based on the project substrate. Before installation, ensure the surface is clean, level, dry, and structurally sound. Carefully align each panel to maintain the continuous radial pattern, and provide suitable support for custom-sized panels. Installation should follow project-specific fixing and safety requirements.
